

You're America

**Hail to our heroes
Who risk with their lives
We stand up, to honor the brave
Remember ground zero
With tears in your eyes
Your spirit is true, oh red, white and blue
We believe in you...**

**Cause you have God on your side
Hold onto your heart
Let love be your guide
How can you go wrong
You're right when you belong
So don't let your dream ever get away because...
You're America, You're America, America**

**Comrade to soldier, you're never alone
Fight your way, over mountains and sea
Shoulder to shoulder, this land is your home
Don't ever give in, cause you're sure to win
You're a champion**

**You have God on your side
Hold onto your heart
Let love be your guide
How can you go wrong
You're right when you belong
So don't let your dream ever get away because...
You're America, You're America, America**

**How can you go wrong
You're right when you belong
So don't let your dream ever get away because...
You're America, You're America, America**
